

*When a person becomes a memory,
the memory becomes a treasure...*

Gay Flowers provides a range of tasteful, sophisticated and carefully arranged flowers, hand crafted by our expert florists who are passionate about the work they create for your loved one and truly understand the sensitivities during your time of sadness. Alexandra Johnstone, Owner and Manager maintains all designs should be reflective of the deceased, and offer a little comfort to make the day a little easier and memorable for all the right reasons. We are available in store or personally by appointment to discuss with you and your family your floral needs.

*Flowers are a product of nature,
dependent on season and markets.*

*We make every effort to create arrangements as pictured,
however please trust our florists to select beautiful flowers
if your choice is not available.*
